Did you know that
playing and listening to music can
improve your memory and relieve stress?

Do you play or listen to music to relax or
to have a good time? Discuss.

UNIT 1

MUSIC AND LEISURE

OBJECTIVES OF THE UNIT

You will...

- Listen to and show comprehension of songs, personal reports and conversations related to topics of music and free time activities.
- Read and identify general and specific information in personal reports and descriptions.
- Express opinions and feelings about free time activities.
- Write simple narrations and descriptions, following the steps of the writing process.

1 🧑🏫 Have you ever learned any English expressions by listening to music? If not, would you like to? Discuss.

2 🧑🏫 Create a word map and complete it with vocabulary for each free time activity.

3 📖🧑🏫 Do some research and find interesting scientific facts about music. Share them with your group.

What do I know?

1   Listen to Alexa talking about her new life. Then answer the questions orally.

- How does Alexa feel?
- What do Alexa and Katerina like doing in their free time?
- Why is Alexa excited?

2  Identify the pictures that represent “free time activities”. What’s your favorite one? Why? Discuss.

3  Describe the activities in activity 2. Use the adjectives below.

exciting

amazing

interesting

boring

relaxing

Example: *Playing the guitar is relaxing.*

4 Read Daniel's email. Identify the following information in the questions.

- a. Who is Daniel?
- b. What does he want to know about Kevin? Why?

The screenshot shows a web browser window with a new message form. The message is from Daniel Diaz (danieldiaz@supermail.com) to Kevin Ross (kevinross@chs.edu.usa). The subject is 'Student exchange'. The body of the email reads: 'Hi Kevin, I'm your exchange partner from Liceo Tecnológico de Maipú. Thanks for inviting me to your home. I'm fourteen years old and I'm interested in sports and music. I like going to parties and meeting new friends! Please write and tell me about yourself. How old are you? What are you interested in? What happens on your typical school day? What do you usually do in your free time? See you in October! Take care! Daniel'. The interface includes a 'Send' button and various icons for text formatting, attachments, and emojis.

5 Read and listen to the dialogue. Then role-play it, replacing the underlined phrases with your own information.

Kim:
What do you like doing in your free time?

Noah:
I enjoy playing the guitar and riding my bike.

Kim:
Why do you like playing the guitar?

Noah:
I think it's relaxing.

LESSON 1

Music in my life

VOCABULARY IN CONTEXT

- 1  Look at the pictures, listen and read. What is the relationship between the images and the words that describe them? Discuss.

a.

This is my grandma's **old upright** piano.

b.

The violin is a **four-stringed** instrument.

c.

My brother has a **new electric** guitar.

d.

Most **modern** pianos have a total of 88 **black and white** keys.

e.

I found some **yellowish** music sheets in my house.

f.

She took a **long deep** breath before she started.

- 2  Discuss these questions.

- What's the relationship between the words in **bold** in activity 1?
- What are they used for?

- 3  Look at the pictures and describe them in one sentence. Use your dictionary if necessary.

a.

b.

c.

READING

- 1  Discuss these questions.
 - a. What's your favorite kind of music? Why?
 - b. Is music an important aspect of your life? Explain.
- 2   Copy this diagram and write words related to each category.

- 3  Read Britany Knight's answers on a website. How can you describe her feelings about music?

Interviewer: ...?

Britany: When I was 6, I started playing the violin.

Interviewer: ...?

Britany: I always wanted to use the violin music sheets on the old upright piano in our living room. My mom saw me and **booked** me some piano lessons.

Interviewer: ...?

Britany: Music is the most powerful means of communication. I feel so good playing the piano. I take a break from reality and express my feelings through the music I play. When I sit down at a piano, I always let out a long deep breath. I feel so calm as I prepare my hands and decide the music to start. The eighty-eight black and white keys create magnetism on my fingers. All my problems go away with the first note.

Interviewer: ...?

Britany: Through my fingers, I can turn emotions into music. I can spend hours at a piano without realizing the passing of time. Playing music is my favorite activity, and my grandma's old black piano is my favorite instrument.

Created by: Publishing team.

- 4  Read Britany's answers again and match them with the interviewer's questions a - d.
 - a. How do you feel about music?
 - b. Why did you change your musical instrument?
 - c. What's your main inspiration to play?
 - d. When did you start out in music?

- 5 📖 👤 Write three questions you would like to ask to your favorite music star. Then role-play it as an interview with your partner.

LANGUAGE IN USE

Describing objects in detail

- a. 👤 Read these phrases from the text. Pay special attention to the parts in orange and green.
- the old upright piano
 - long deep breath
 - eighty-eight black and white keys
 - my grandma's old black piano
- b. 👤 Answer these questions orally.
- What do the parts in orange refer to?
 - What do the parts in green refer to?
- c. 7 👤 Circle the correct option in your Activity Book.

- 1 👤 Look at these pictures and describe them. Use a dictionary if necessary.

- 2 👤 Choose an object from your classroom (or house) and draw a picture of it. Show the drawing to your group and ask them to describe it in detail.
- 3 7 👤 Design an unusual musical instrument in your Activity Book.

Modeling

- 1 Read an extract of Britany's interview. Do you feel the same about music? Discuss.

Music is the most powerful means of communication. I feel so good playing the piano. I take a break from reality and express my feelings through the music I play.

When I sit down at a piano, I always let out a long deep breath. I feel so calm as I prepare my hands and decide the music to start. The eighty-eight black and white keys create magnetism on my fingers. All my problems go away with the first note.

Organizing ideas

- 2 Write three or four sentences expressing your feelings about music or a musical instrument. Follow the examples.
- *I feel so good playing the piano.*
 - *When I sit down at a piano, I always...*
 - *I feel so calm as...*

Drafting

- 3 Write a fifty-word text describing your feelings and emotions. Use the sentences you wrote and the text in activity 2 as a model.

Revising and editing

- 4 Check your text. Correct spelling and grammar, if necessary.

Writing

- 5 Write the final version of your text on a separate piece of paper.

Publishing

- 6 Publish the final version on your classroom's notice board.

LET'S PLAY

- 1 🧑🧑🧑 Roll the dice, move along, and describe the picture in detail. Use a dictionary, if necessary.

LISTENING

- 1   Relate the pictures to the expressions below. Then explain the meaning of the expressions in your own words.

bounce off

score

dribbling up

- 2   You will listen to a song related to a popular sport. Discuss. Then listen and check your predictions.
- Which sport do you think it is?
 - How do you know?
- 3   Listen to the song again and identify the rhyming words. Write them in your Activity Book.
- 4  Listen again and answer the following questions.
- What happens with the ball?
 - What happens with the teacher's nose?
 - Why do the other players "stop and stare"?
- 5   Think about your favorite sport and create a stanza for your own rap. Work with a partner and follow the example below.
- Example: *Basketball's my favorite sport.
I dribble up and down the court.*

LANGUAGE IN USE

Expressing possession

a. Read the sentences and pay attention to the underlined parts.

- i. Basketball's my favorite sport.
- ii. The ball goes bouncing off my toes.
- iii. The ball scores on the teacher's nose.

b. 👤 Read and practice this dialogue with your partner.

Is that Mike's notebook?

No! It's my notebook!

c. 📖 Fill in the blanks to express possession in your Activity Book.

SPEAKING

Preparing to speak

1 🎧 Madison and Oliver are talking about their favorite activities. Look at the pictures, listen and identify the activities.

The main image shows a young woman with black hair and a blue shirt, and a young man with black hair and an orange shirt, sitting at a desk with a laptop. They are both smiling and looking at the laptop screen. Above them are two speech bubbles. The left speech bubble is green and contains two small images: 'a' shows a close-up of piano keys, and 'b' shows a woman wearing headphones. The right speech bubble is teal and contains two small images: 'c' shows a man in a suit singing into a microphone, and 'd' shows a man and a woman dancing.

Modeling

2   Listen again and practice the dialogue in pairs.

Oliver:
What do you like doing in your free time?

Madison:
I like listening to music, classical and rock music, and I have piano lessons twice a week.

Oliver:
Why do you like music?

Madison:
Because I can relax and express my feelings.

Oliver:
Oh, I love music too! I like singing and I really enjoy dancing.

Let's speak

3  Use the example in activity 2 to create a similar dialogue about these free time activities related to music. Use the **USEFUL EXPRESSIONS** provided below.

USEFUL EXPRESSIONS

- What do you like...?
- What about?
- Why do you like...?
- Because I...

4  Role-play the dialogue in front of the class.

LET'S REFLECT

- Has your previous experience with music helped you express yourself better? Explain.

Checkpoint

Try these challenges.

1

Mention five free time activities.

2

Exchange information about favorite activities.

3

Write a sentence expressing your feelings about music.

CHECK AND TAKE ACTION

Cultural Spot

On October 5, 1962, four young men with schoolboy haircuts released their first record: the single Love Me Do. Within a year, they were about to become the most famous band around the world.

This song that Paul McCartney began to write as a teenager started it all.

Drummer Ringo Starr described the release of the track as a "turning point" for the group.

"For me, that was more important than anything else" Starr said in 1978.

The Beatles were **pioneers** in recording, songwriting and artistic presentations. They revolutionized many aspects of the music industry and were leaders of sociocultural movements.

The band stopped touring in 1966 because the crowds became too intense and it was just impossible to play live. They released five more albums before the band's dissolution in 1970.

- 3 Read the text and check your ideas in activity 2.

LET'S EXPLORE SPORTS THAT HOLD CULTURAL HERITAGE AROUND THE WORLD

Where? The USA.

My favorite sport is baseball. It's one of the most popular sports in my country. Yesterday, we learned some rules during physical education class, and later, we played for a few hours.

Where? Canada.

I started playing ice-hockey two years ago, after. I went to a game with some friends.

It is Canada's national winter sport.

I joined my school ice-hockey team, and I'm training really hard.

Where? Argentina.

In my country, Argentina, the national sport is *pato*. It began a lot of years ago, and it is similar to polo. My father played this sport and won many cups with his team.

In the future, I'd like to play *pato* too, but I need to learn to ride a horse first!

Where? Norway.

Cross-country skiing is part of Norwegian culture and our national sport.

It is a lot of fun, and it's perfect for a perfect day out. It's a great way to explore beautiful Norwegian landscape and connect with nature.

WRITING

Modeling

- 1 Read and analyze this article. Then, answer the questions.
 - a. Where is the sport popular?
 - b. What is the objective of the game?

Cricket is very popular in Australia, New Zealand, India, Pakistan, South Africa and many of the islands of the Caribbean.

It was created in the southeast of England during Norman times.

It is a very difficult and complex sport. Two teams of eleven players take turns to bat and to field.

The objective of these **batters** is to hit the ball and score as many runs as possible.

The winner is the team that scores more runs.

Adapted from: Cricket. (2020, October 30). Retrieved December 23, 2020, from <https://bit.ly/2Xj1zNM>

Organizing ideas

- 2 Choose a sport that is popular in your country. Look for information in encyclopedias, books, or Internet articles, and complete this diagram.

Drafting

- 3 Use the information in activity 2 to write a description of the sport you chose. Use the text in activity 1 as a model.

Revising and editing

- 4 Check your text. Correct spelling and grammar, if necessary.

Writing

- 5 Write a final version of your article on a colored piece of cardboard. Add pictures.

Publishing

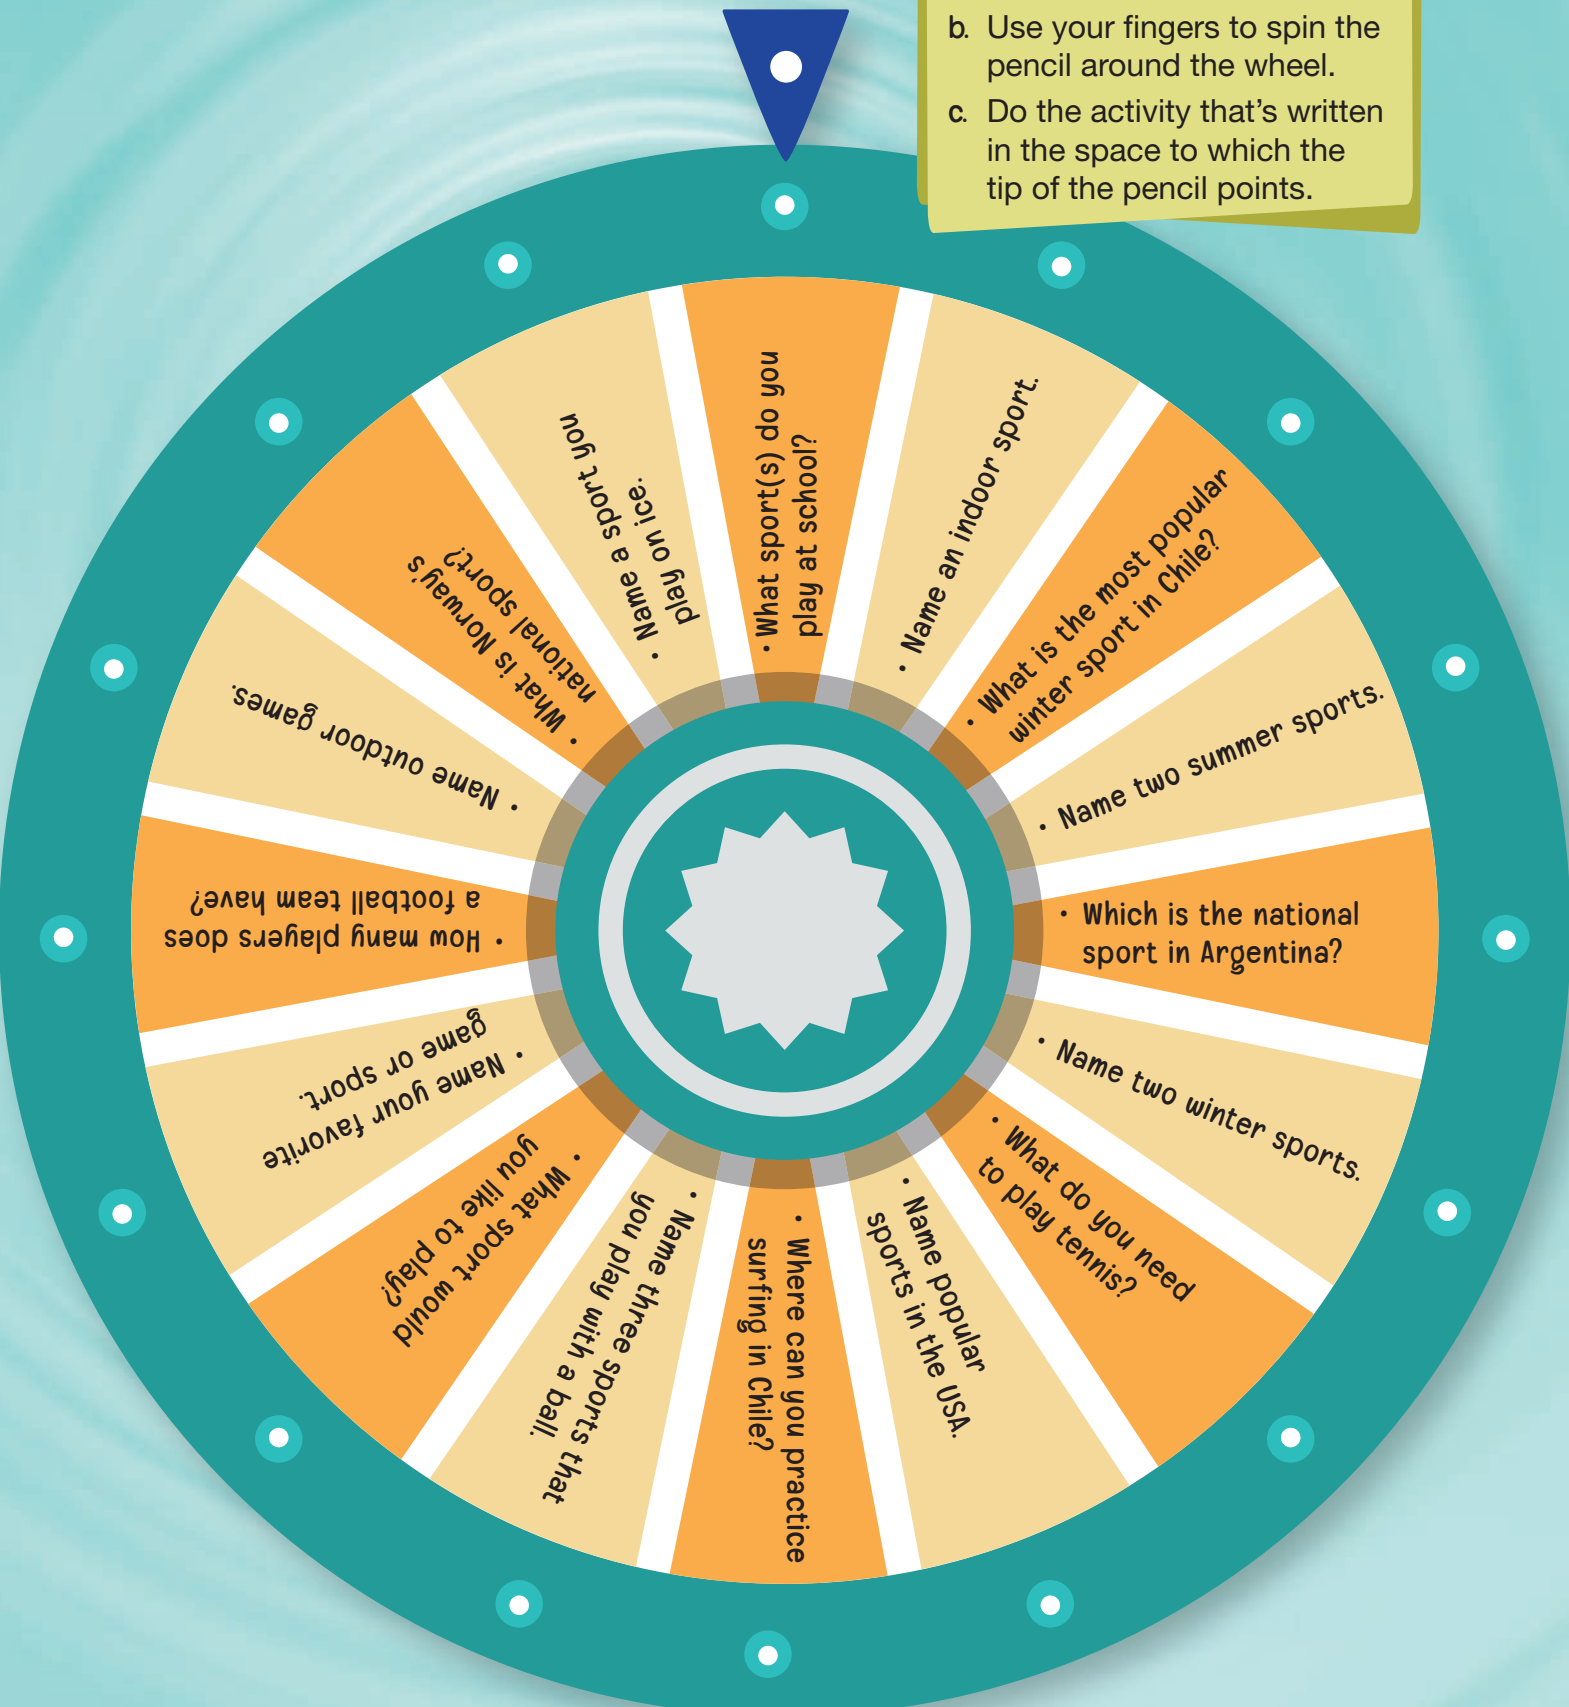

- 6 Display your poster on a visible place of the classroom. Read the description aloud to your classmates.

LET'S PLAY

- 1  Follow the instructions and play the Sports Spinning Wheel.

Instructions

- Place a pencil on the wheel.
- Use your fingers to spin the pencil around the wheel.
- Do the activity that's written in the space to which the tip of the pencil points.

THE LOVE OF THE GAME

By Mitchell Browder

It's Friday night,
I've got a game
We play the Indians,
My best friend's team

My uniform's on
It's only 4 o'clock
Mum says we leave
5:30 on the spot

Tonight's our first game
I'm fast in my new **cleats**
My glove's broken
Because I've slept on it for weeks

I'm still a little nervous
But not about playing
I wonder which girls will be there
And what they will be saying.

Taken from: Browder, M. (2011). The love of the game.
Retrieved from <https://bit.ly/3s4ghq7>

- Look at the picture and describe what you see in it.
- Read and listen to the poem.
 - What sports equipment is mentioned?
 - What time is the player at the field?
- Discuss these questions.
 - What does the author mean by: "We play the Indians"?
 - What is the author nervous about?
 - Which of the children in the text on page 21 could have written this poem? Why?

2. 👤 What are the people doing in the pictures? Discuss with your partner.

- 3 Discuss these questions. Then share your comments with your classmates.
- Do you like weekends? Why? Why not?
 - What do you usually do on weekends?
 - What did you do last weekend?
- 4 You will listen to two friends talking about their last weekend. What do you think they did? Discuss.
- 5 Listen and check your ideas in activity 4.
- 6 Listen again. Which of these activities are not mentioned in the story? Discuss.

Wayne went camping to the beach.

Wayne had a barbecue at home.

Wayne and his friends went swimming.

Wayne rode his bike along a river.

- 7 Retell Wayne's weekend activities to your classmates. Use the questions in the diagram below as clues.

LANGUAGE IN USE

Expressing sequence of events

- a. Read the extract from the conversation and answer the question below.

First, we put up our tents. **Next**, we rode our bikes along the river and **then** we lit a fire.

What do the words in **bold** indicate?

- The frequency in which the events happen.
 - The sequence in which the events happened.
- b.  18 Fill in the blanks with the correct sequence connector in your Activity Book.
- c.   Talk with your partner about the activities you did yesterday / this morning. Use the words you studied to indicate sequence of events.

SPEAKING

Preparing to speak

- 1   Listen and repeat these words. Pay special attention to the final sounds (plurals). Do they sound similar to your native language? Discuss.

Modeling

- 3 Read and listen to the extract of the dialogue between Donna and Wayne. Pay attention to pronunciation and intonation.

Donna: I see. What did you do?

Wayne: Well, on Saturday, I went camping to the mountains with my new school friends. We did a lot of things! First, we put up our tents. Next, we rode our bikes along the river and then we lit a fire.

Created by: Publishing team.

Practice

- 4 Practice the dialogue in activity 3. Take turns to be Donna and Wayne.

Let's speak

- 5 Create a dialogue to talk about the activities you did last weekend. Use the **USEFUL EXPRESSIONS** provided in the box and the words you learned.
- 6 Role-play the dialogue in front of your classmates.

USEFUL EXPRESSIONS

- What did...?
- Where did...?
- Did you...?
- First, I...
- Then,...
- Finally,...

LET'S REFLECT

- Did the sentences in activity 2 help you with the dialogue?
- Which was the most difficult aspect of creating the dialogue? Explain.

Checkpoint

Try these challenges.

1. Write a sentence to describe each picture.

2. Talk about your last weekend activities with a partner. Tell them in the correct sequence.

3. Write a brief description of a sport.

CHECK AND TAKE ACTION

Subject Connection

Physical
education

In Australia, physical education and sports are **compulsory** for everyone until you're sixteen. The sports facilities are usually very good. Everyone has to do three hours of physical activity a week. In winter, we play Australian football - it's not the same as football in Europe, and you can also play hockey. In summer, the boys play cricket and the girls play tennis and that's all we can do at school. Of course, a lot of people do other sports in their free time.

Taken from: Taggart, A. & Goodwin, S. (2000) Physical and sport education in Australia: organisation, placement and related issues. Retrieved from <https://bit.ly/38ihVve>

We're lucky in my school, as we have good sports **facilities**. So, if you like sports, it's great. In the UK, it's compulsory to do two hours a week, but you can do more if you want. We have a gym where we do gymnastics and aerobics. I'm not very good at gymnastics! And team sports? Well, both girls and boys play basketball. In summer, you can choose what you want to do. You can either play tennis or go swimming.

- Discuss these questions.
 - Is physical education important to you? Why? Why not?
 - Should schools increase or eliminate physical education classes? Why?
 - How do you think exercise can improve your performance in other subjects at school?
- Read what these students from Australia and the UK say about sports at school. Identify the ideas that are similar to your own reality.
- Think about your school and compare. Identify similarities and differences.
 - How many hours of sports are compulsory in your school?
 - What sports facilities do you have in your school?
 - What sports can you practice?

Project: Tri-Fold Poster

MATERIALS

Pencils

Colored construction paper

Printed text

Scissors

Images of your topic

Glue

In groups of four, you will make a tri-fold poster about one of these topics:

- The description of a musical instrument.
- An unusual sport or leisure activity.

PREPARATION

1

Your tri-fold must include the following information:

- a. Name of the musical instrument / activity.
- b. Country or place of origin.
- c. A detailed description of the instrument / activity.
- d. Category of instrument / equipment you need to play it.
- e. Other interesting information.

2

Search for information on the Internet or at your school library. Look beyond the first few results and always cite your sources.

PRODUCTION

- 3 Agree on the layout for the information of your tri-fold poster.

UNIT 2

CLIMATE CHANGE AND NATURAL DISASTERS

OBJECTIVES OF THE UNIT

You will...

- Listen to and show comprehension of conversations and instructions related to the topics of climate change and natural disasters.
- Read and identify general and specific information from informative texts, instructions and poems.
- Express opinions about global and cultural topics.
- Write simple informative texts and instructions, following the steps of the writing process.

-  Look at the picture and discuss these questions.
 - a. What is the picture showing?
 - b. Is climate change natural or caused by people?
 - c. How are common people responsible for what is happening?
 - d. Do you know of any examples in your region? What is your opinion about this matter?
-  Find information about different environmental problems. Copy this chart and complete it.

ENVIRONMENTAL PROBLEMS

Air Problems

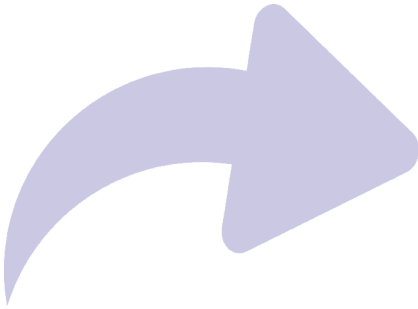

Land Problems

Water Problems

What do I know?

1  Create full sentences in the past following the example below. Then share them with your group.

Example: **A: I ate pizza yesterday afternoon.**

- a. I  three times yesterday.
- b. I before coming to school.
- c. I right after I got up this morning.
- d. I last month.
- e. I last year and it was great!
- f. I the day before yesterday but I didn't yesterday.
- g. I last week and it was horrible.

2  Imagine this is what you really did last week and tell your partner about it.

3 🗣️ 👤 In which habitats do these animals live? Discuss. Then listen and check.

Frogs

Penguins

Ibexes

Alligator

Wildebeests

4 🗣️ 👤 Listen and discuss. Right or wrong?

- a. Freshwater habitats cover only a little portion of the world's water.
- b. Freshwater habitats have a poor flora and fauna.
- c. The largest freshwater habitat is in Florida.
- d. The Amazon River flows through Peru and Ecuador.

5 👤 Look at the pictures and answer the questions.

- a. Which of the animals below does not live in a freshwater habitat?
- b. How many other animals, do you think, live in this kind of habitat?
- c. Is this habitat common around the world? Where can you find it?

6 👤 What's your favorite Chilean habitat? Discuss. Follow the model below.

I like forests in Chile because you can find different types of animals, such as small foxes.

I like marine habitats because the fauna is very diverse.

LESSON 1

What are we doing?

VOCABULARY IN CONTEXT

1 Read, listen and look at the pictures. Are these problems familiar to you? Discuss.

Ice caps are **melting** as a consequence of climate change.

Some animals are experiencing the **destruction of their natural habitats**.

Extreme **droughts** are affecting many parts of the globe.

Floods can have disastrous consequences in rural and urban areas.

Forest fires can be caused by extreme weather.

Weather-related natural disasters can be connected to global warming.

2 Match the words to discover the concepts.

Acid
Greenhouse
Endangered
Ozone layer

reduction
species
rain
effect

3 Identify the meaning of the concepts in activity 2.

- Animals or plants which may soon not exist because there are very few now alive.
- The gradual thinning of earth's ozone layer caused by chemical compounds from industry and other human activities.
- A precipitation that is unusually acidic and can have harmful effects on plants, animals and infrastructure.
- The increase in the amount of carbon dioxide and other gases in the atmosphere.

LET'S REFLECT

- What can you do to prevent these problems?

- 1   Discuss these questions and take notes.
 - a. What do you know about *global warming*?
 - b. What are its main causes?
 - c. What are its effects?

- 2  What do you think the purpose of this text is? Have a look at it and answer.

- 3 Read the information from the website and confirm or correct your ideas.

GLOBAL WARMING AND CLIMATE CHANGE

Today, one of the biggest environmental issues is global warming. Its effects on human population, animals and agriculture will be severe.

I Global warming is the increase in the **average** temperature of earth's atmosphere and oceans.

II The earth's temperature stays almost the same from year to year. If this average temperature is higher, we have global warming.

Some of the factors that cause global warming is **greenhouse** gases.

When we burn wood, coal, or gasoline in our cars, we release a gas called carbon dioxide (CO₂). When carbon dioxide in the air goes up, the earth heats up. That is the start of global warming. There are other greenhouse gases that contribute to this situation: water vapor, methane, ozone. Carbon dioxide is responsible for about half of global warming, while other gases are responsible for the other half.

III There are two major effects of global warming:

- Increase of temperature on the earth by about 3° to 5 °C by the year 2100.
- Rise of sea levels by at least 25 meters by the year 2100.

The increase of global temperatures is causing many effects on the climate. Sea levels are rising and patterns of precipitation are changing. When this happens, it increases the frequency, duration, and intensity of other extreme weather events such as floods, droughts, **heat** waves, and tornadoes.

Other effects of global warming are: deforestation, massive **crop** failures, extinction of species, and disappearance of coral reefs.

Adapted from: Juerg. (2007, January 14). Cause and effect for global warming. Retrieved from <https://bit.ly/3r0kQkF>

4 👤 Read the text again and choose a title for each paragraph (I – III).

- a. The effects of Global Warming.
- b. What is Global Warming?
- c. Causes of Global Warming

LET'S REFLECT

- Do you think there are better ways to generate energy?

5 📖 👤 Copy this graphic organizer and complete it with information about global warming.

6 👤 Discuss these questions with your partner and share your ideas with the rest of the class. Support your answers with information from the text.

- a. What effects do you think global warming will have on humans and animals in the future?
- b. How can we help as students?

LANGUAGE IN USE

Expressing causes and effects (If.../When..., then...)

a. Read these sentences from the text.

- *If this average temperature is higher, we **have** global warming.*
- ***When** carbon dioxide goes up in the air, the earth **heats** up.*
- ***When** this happens, it **increases** the frequency, duration, and intensity of other extreme weather events.*

b. 👤 Answer these questions.

- i. What do the sentences express?
- ii. What particle(s) is (are) used to express the causes?
- iii. What verb tenses are used?

c. 📖 Follow the pattern and write two more examples of causes and effects (related to the environment).

d. 👤 Exchange examples with your classmates.

e. 23 👤 In your Activity Book, fill in the blanks with the correct form of the verbs between parentheses.

Model text

- 1 Read an extract of a text about global warming.

Hey, Ron, what do you think is a serious environmental problem?

Ron:

Pollution! It is dangerously changing our life!

Ely:

How many types of pollution do you know?

Ron:

Well... air pollution, ocean pollution, acid rain...

Ely:

Can you tell me some effects of pollution?

Ron:

Nowadays, pollution is everywhere. It gets into the air and irritates people's lungs. It also changes the climate drastically, damages our animals, and poisons the water we drink!

Ely:

Mmm, it's definitely a serious problem!

- 1 👤 Look at the picture in the text. What do you think the story is about? Discuss.

THE POLAR BEARS' HOME

Hello, welcome to the Arctic! This spring, since so much snow and ice had melted, my dad said, "Let's go out for a boat ride." And that's when I saw two furry white balls on a sheet of ice, all alone.

"Those are polar bear **cubs**," my dad told me. "They look like they were born just this winter." "Where is their mother?" I asked him. "I don't know," said my dad. He was surprised too.

"Maybe we should take the cubs home and take care of them," I said. "I don't think so," my dad told me. "When these bears grow up, they will be enormous, and they will need a lot of food that we just can't give them. Besides, polar bears are happiest living on the ice."

"Unfortunately for polar bears," my dad said, "and many other animals too, the Arctic is warming up more and more every year."

"Why?" I asked.

"The world and its climate are changing," he told me, "And we

humans are making it change faster. We use a lot of energy, to heat our homes and run out factories, and even power this boat, and most of it comes from burning oil and coal. That makes a gas which forms a tent around the earth and traps in extra heat."

Then we saw something white floating towards them in the water. It was their mother!

"Will they be OK?" I asked my dad.

"I think so," he said, " but there are a lot of other polar bears that will need our help from now on."

"We can all help them, some of the things we can do to slow down global warming are recycle aluminum cans, glass bottles, plastic and cardboard, plant trees and turn off things such as computers, TV or lights when we are not using them."

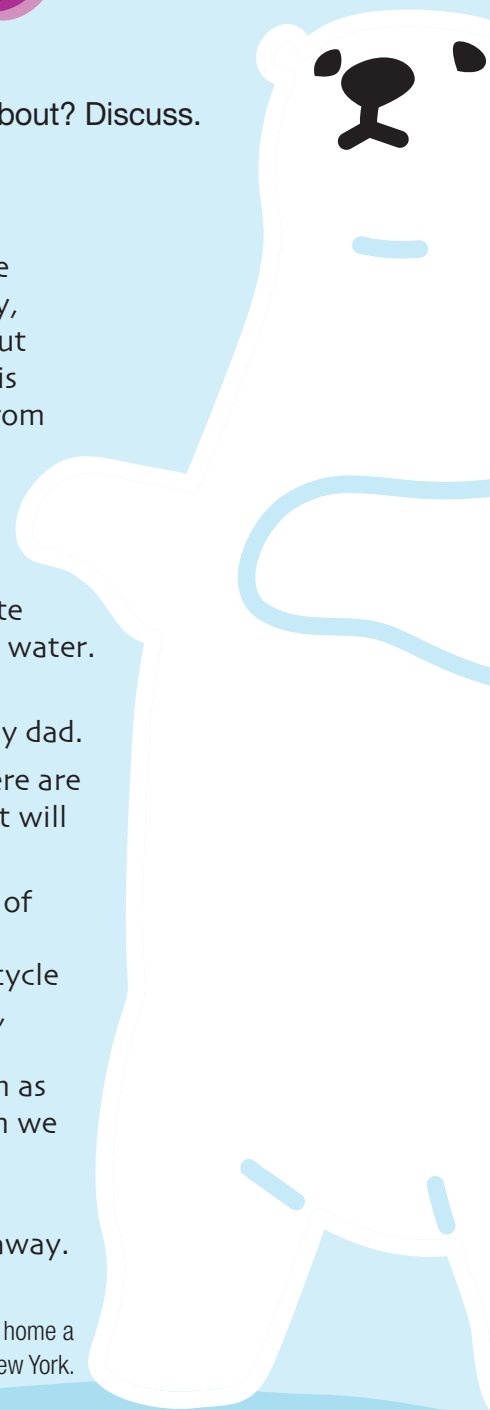

"Let's get to it!" I said, as we watched the bear family go away.

VOCABULARY IN CONTEXT

- 1   Read, listen and look at the pictures. Are these disasters possible to prevent? Discuss.

a.

A **tornado** is a violent storm with very strong winds.

b.

An **earthquake** is a sudden, violent shaking of the earth's surface.

c.

A **tsunami** is an extremely large wave in the sea.

d.

A **volcanic eruption** happens when a volcano suddenly throws out burning rocks, smoke, etc.

e.

A **flood** is a large amount of water covering an area.

f.

A **landslide** is a mass of earth or rock that falls down the slope of a mountain or a cliff.

- 2  Discuss these questions.

- Which of these natural disasters usually happen in your area?
- Have you ever witnessed one of them? When?
- What do you think are the causes of these disasters?

LET'S REFLECT

- Which of these natural disasters do you think is the easiest to prevent? Why?

- 1 Copy this word map and complete it with the names of natural disasters related to each element.

- 2 Which of these statements about earthquakes is a fact and which of them is fiction? Discuss.

Earthquakes usually happen in the morning.

Earthquakes happen both during the day and at night.

- 3 Read the text quickly and check your predictions.

What are earthquakes really?

An earthquake is a trembling or shaking movement of the earth's surface. They cannot be predicted and we cannot prevent them, but you can do a lot of things before, during, and after they take place. These are some of them.

- Firstly, if an earthquake occurs, fall onto the floor and get under something for protection.
- If you are outdoors, stay as far away from buildings as possible.
- Stay away from glass or anything that could fall.
- If you are in a **crowded** area, do not run. This will cause more **injuries**.
- Next, be prepared for **aftershocks** after the initial earthquake. They are usually smaller than the first one, but still very dangerous.
- After an earthquake, stay calm and help people who are trapped.
- Finally, do not try to be a hero; it is better to inform the corresponding emergency services.

- 4 Read the text again. What type of instructions can you find in it? Discuss.

- How to make an emergency kit.
- How to face an earthquake.
- How to prevent earthquakes.

LET'S REFLECT

- Do you think the instructions in the text are appropriate? Why?

If you want to learn more about earthquakes, visit <https://bit.ly/3aFnVjU>

5  Answer these questions. Take notes and share your comments with other groups.

- a. Does your school inform you of an earthquake plan? How?
- b. What are the safety measures and safe spots in your school?
- c. What do you do if you are indoors/outdoors?
- d. What actions should NOT be done?

LANGUAGE IN USE

Expressing sequence of events

a. Read these sentences from the text.

- i. **Firstly**, if an earthquake occurs, the most important thing to do is to fall onto the floor and get under something for protection.
- ii. **Next**, be prepared for aftershocks after the initial earthquake.
- iii. **After that**, it is very important to stay calm and help people who are trapped.
- iv. **Finally**, do not try to be a hero.

b. What do the words in **bold** express? Discuss.

- i. Frequency.
- ii. Place.
- iii. Sequence.
- iv. Time.

c.  Read these instructions on how to make an emergency kit. Copy and complete the instructions using the words you learned.

- i. ..., choose a large bag or box for the kit.
 - ii. ..., collect dry goods such as soup, beans, crackers, and other food that doesn't require refrigeration.
 - iii. ..., buy a first-aid kit with bandages, burn lotion, rubbing alcohol, etc.
 - iv. ..., find a place for the kit in the house and show everyone in the family where it is.
- d.   Look at the picture of flood safety tips in your Activity Book and complete the instructions.

Modeling

- 1 Read and analyze this set of instructions.

- ✓ Firstly, if an earthquake occurs, the most important thing to do first is to fall onto the floor and get under something for protection.
- ✓ If you are outdoors, stay as far away from buildings as possible. If you are in a crowded area, do not run. This will cause more injuries.

2. Read the article and check your ideas.
3. 👤👤👤 Answer in your group. Then exchange ideas with the rest of the class.
 - a. Could something similar happen in your country? Where?
 - b. How can people get prepared for an event like this?

If you want to learn more about Pompeii, visit <https://bit.ly/39xrojR> 🖱️

Pompeii was a Roman town in southern Italy. On August 24, 79 AD, the volcano Vesuvius **suddenly** erupted. A **thick** cloud of **ash**, stone and poisonous gas rained down on the Roman town of Pompeii, which was near the volcano. The town was completely buried in just a few hours and most of the people who lived there were killed.

Many centuries later, archaeologists had to **dig** through up to five meters of ash to uncover the Roman streets of Pompeii. The archaeologists found many buildings intact, filled with Roman objects, artwork, and even food. They also found the remains of Roman people trapped by the eruption. They were 'petrified'.

Today Pompeii is a tourist destination where people can walk through the streets of what was once the first-century Roman city.

Project: An Emergency Leaflet

MATERIALS

Printed text

Colored construction paper

Images of your topic

Pencils

Glue

Scissors

In groups, you will make a list of instructions to face an environmental emergency.

PREPARATION

1 As a group, follow these steps.

- a. Choose an environmental emergency that is likely to happen in your town, city, area or country do some Internet research or in your library. Remember to cite your sources.
- b. Brainstorm and take notes of what to do to prepare for the emergency and what to include in an emergency kit.
- c. Brainstorm and write down a set of instructions on what to do.
- d. Organize your notes and divide them into before, during, and after the emergency actions.

PRODUCTION

- 2 Choose the format for your leaflet, the organization of the instructions, and the artwork.
- 3 Distribute tasks among the members of your group: someone to be in charge of the artwork, someone to write the instructions, someone to present the leaflet to the class, etc.
- 4 Once the instructions are written, check for punctuation, grammar, and spelling mistakes.
- 5 Re-write the instructions and illustrate your leaflet with photos or drawings.

PRESENTATION

- 6 Show your final work to your teacher and then present it to the class.
- 7 Put the leaflets together to form a manual to face different environmental emergencies.

PEER ASSESSMENT

Read these indicators and check your performance with your group.

a. We followed the instructions and included all the information asked.

b. We presented a clear and well-organized project.

c. We completed our work on time.

d. We had a positive attitude towards the tasks of others.

e. We worked collaboratively towards a common objective.

f. We used communication technologies in a responsible way, acknowledging and citing our sources of information.

Green is the new black!

'Green' is a term that many people use to talk about taking care of the planet and not overusing the resources that we all share. If you want to make a difference, you should follow these three principles: Reduce, Reuse, and Recycle.

'Reduce' means to use less of everything: less energy, less paper, less gas, and less water. It means people should ride bikes, walk or use hybrid cars. You should also turn off the water when you are brushing your teeth.

'Reuse' means to find new uses for your old products. You can transform a pair of old jeans into a cool purse, or use broken flower pots to create mosaic for a table or photo frame. You can also use newspapers to make art for a friend.

'Recycle' means to take your used products like cans, bottles, plastics, and paper and donate them to groups that turn them into new products.

Tapati on Easter Island (Rapa Nui)

On mystical Easter Island, every February people celebrate the *Tapati* festival.

They select a queen for the festival from among the young people. They also compete for their honor in swimming and canoeing competitions, using small boats and rafts made of “*tora*”. The teams prepare traditional costumes, songs and dances, and share the stories of myths and legends in oral tradition.

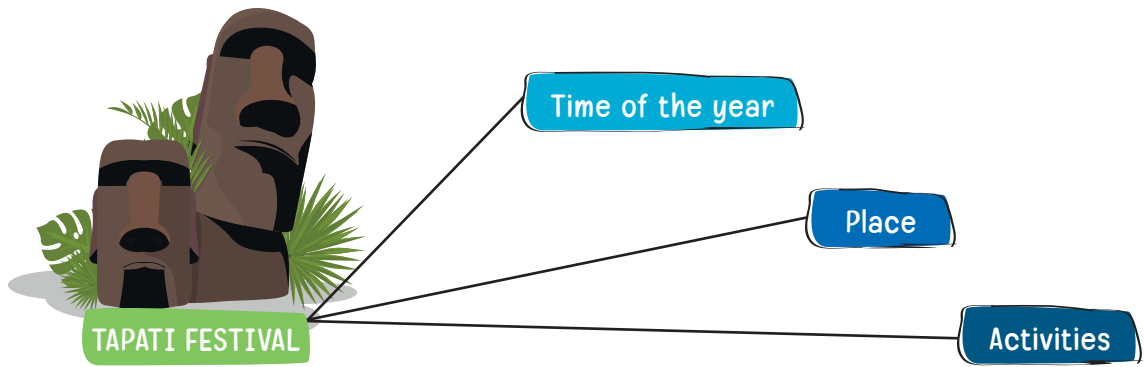

Body painting, called *Takona*, is the festival’s main event. The islanders paint their bodies with symbols of their mythic origins using natural pigments. They also test their physical skills in the *Haka Pei* competition. There, the bravest young men throw themselves at a great speed down a mountain.

Hey Lisa

Last summer, I went to South Africa with my father. On the first day of our trip, we landed in Johannesburg. It is the largest city in South Africa. We stayed for 2 days to explore this wonderful metropolis and tried the exotic typical food. We ate lots of vegetables and meat.

Then, we took a 3-day photographic safari at Kruger Park. It was just like a normal safari, but instead of a gun we used a camera and “shot” animals in pictures and videos. During our trip, we explored the park in an open safari vehicle. We saw gazelles, zebras, and other animals from the African savannah.

Finally, we went back to Johannesburg for the final day. The photographic safari was amazing. It was an awesome experience.

I hope you like the pictures!

Expressing the sequence of events

- a.  Read these sentences from the text and practice them out loud.

***On the first day** of our trip, we landed in Johannesburg.*

***Then**, we took a 3-day photographic safari at Kruger Park.*

***Finally**, we went back to Johannesburg for the final day.*

- b.  What do the words in bold in activity a express? Discuss.

- c.  Think about your last weekend and write a list of the things you did, using the words in bold in activity a.

- d.  Tell your classmates what you did, connecting the events with the words you learned.

- e.   Look at the pictures in your Activity Book and write what you think happened last weekend. Express the sequence of events with the correct connectors.

LET'S REFLECT

- Can you think of an interesting aspect of your culture? Discuss it to your partner.

WRITING

Model text

- 1  Read the extract of this travel blog and check the new vocabulary.

Organizing ideas

- 2   Think about an experience connected to an amazing place you visited. Collect information about it. Consider the following vocabulary:

First

Next

Then

Finally

I visited *San Pedro de Atacama* on my last vacation. First, we walked around town. We visited the *San Pedro* church and then the archaeological museum. The next day, we took a bus to *Valle de la Luna* and spent the day trekking and taking pictures. On the last day, we woke up at 5 o'clock and went to see the geysers. They are spectacular!

We also visited the *Miscanti* lagoon and saw the *Licancabur* volcano.

Finally, we went back to the town and bought typical souvenirs. We had the most amazing vacation in *San Pedro*!

- 3 Write sentences narrating the activities you did.

Drafting

- 4 Put the sentences together into a short composition about your experience.

Revising and editing

- 5  Check your text. Correct spelling and grammar, if necessary.

Writing

- 6 Write the final version of your text on a separate piece of paper.
If possible, type it and prepare a presentation, attaching some pictures.

Publishing

- 7  Show your presentation to your classmates or read the composition aloud.

LET'S PLAY

1  Solve the riddles and guess the places.

If you travel around the world and visit India, China, Japan and Vietnam:
On which continent would you be?

When looking at this continent, some capital cities you might see include Warsaw, Prague and Dublin, London, Paris, Rome and Helsinki.

This is the name of a continent which has different countries.
People living there might be Peruvian, Mexican or Canadian.

Although it's not the nation's capital, it is still a very big city. It can be found in the United States and the Statue of Liberty is there.

It is a country in Europe where you can climb the Eiffel Tower. They had many kings called Louis and Napoleon once was in power.

Through the middle of this continent runs the line of the Equator.
It has more than fifty countries, including Togo, Chad, Morocco and Malawi.

It's a country that has great animals like a large bird called emu, cute and cuddly koalas and big hopping kangaroos.

LISTENING

- 1  Identify the name of these elements that are part of a country's culture. Then listen and check.

- 2   Listen and point to the pictures. Then practice the actions.

- 3  You are going to listen to a report about customs around the world. Pay attention and answer the questions.

- Which countries are mentioned?
- Which greetings are common in each country?

- 4  Listen again. Focus your attention on the hand gestures topic and identify the country.

- It is quite unusual to kiss when they greet.
- People tend to be more conservative.
- People don't give casual hugs.

LET'S REFLECT

- Which aspects of the report helped you answer the questions in activity 19?

5  Discuss these questions in your group. Then exchange ideas with your classmates.

- a. Are you tolerant with unfamiliar customs from other countries? Why?
- b. Do you think it is important for a visitor/immigrant to adapt to local customs? Why? Why not?

Preparing to speak

- 1 Listen and repeat these words. Pay attention to the different pronunciation of the initial sounds.

hand have hair head hello hug honor hour honest heir

- 2 Listen and repeat these phrases related to greetings.

Shake hands kiss say hello bow hug nod smile

Modeling

- 3 Read and listen to the extract of the recording. Then, practice reading it aloud with your partner, imitating the pronunciation and intonation.

In the USA, men shake hands when they meet.

The British often say 'hello' when they meet friends.

They usually shake hands only when they meet for the first time.

In Japan, the common greeting is to bow.

Chinese usually nod their heads and smile, or shake hands if it's a formal situation.

Let's speak

- 4 Think about the way people greet in your region. Consider first time, in formal situations, and when they meet friends. Prepare a short report like the one in activity 24, **USING EXPRESSIONS** in the box.
- 5 If possible, record the report and share it with your classmates. If not, read it aloud in front of the class.

USEFUL EXPRESSIONS

- In..., people... when...
- In a formal situation...
- They often/usually... but they never...

Checkpoint

Try these challenges.

1. Write sentences to describe the pictures.

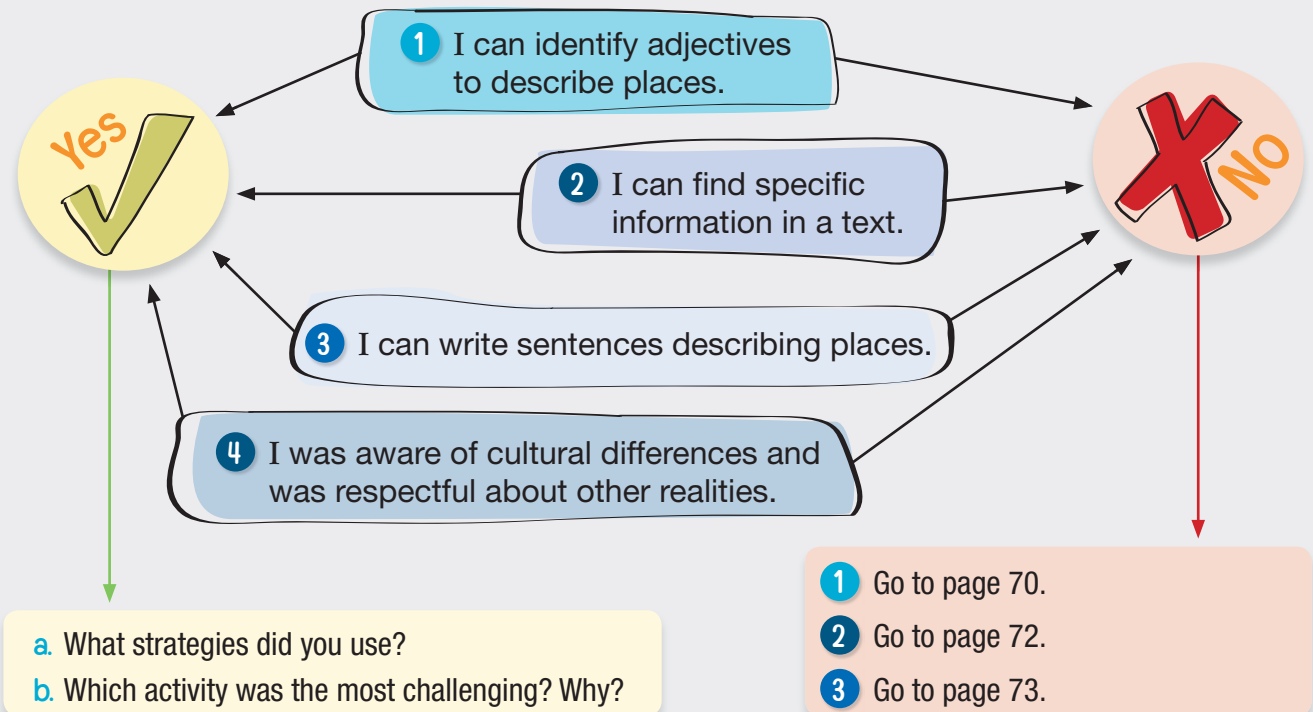

2. Give three examples of adjectives starting with the prefix **un**.

3. Read the text on page 71 again and answer.

- Which is the largest city in South Africa?
- How does the writer describe the food, the city and the safari?
- How long did they stay in South Africa?

ANCIENT LAND - Cultural Interview

By Nancy Cahill

1. 🧑🧑🧑 Discuss these questions.
 - a. What is China famous for?
 - b. How are Chile and China similar/different?
2. 🕒 Read and listen to the text to confirm your ideas.

If you want to learn more about China, visit <https://bit.ly/3rvDi4p>

In this interview, Professor Ben Ross shares his expert insights into Chinese culture and food.

Nancy: What can you tell us about Chinese celebrations?

Ben Ross: There are numerous festivals; the most popular ones are the Chinese New Year and the Lantern festival.

Nancy: After living for many years in this country, did you become a fan of Chinese food? What are your favorite dishes?

Ben Ross: China has a distinctive traditional food. The most traditional dishes are: fried rice, Chicken Chow Mein, Peking duck, hot and sour soup, egg rolls and sweet and sour pork.

Nancy: Can you share a traditional Chinese recipe with our readers, Ben?

Ben Ross: Sure! I think the easiest dish to begin with is fried rice.

Fried rice

Ingredients

1 green onion, 2 large eggs, 1 teaspoon of salt, and pepper to taste, 4 tablespoons of oil, 4 cups of cold cooked rice, 1 tablespoon of light soy sauce

- First, wash and chop the green onion, and beat the eggs with salt and pepper.
- Next, cook the eggs until they are scrambled.
- Then, add oil and the rice in the wok. Stir for a few minutes and add the soy sauce.
- Finally, add the scrambled eggs and mix everything very well.

A little journey to Puerto Rico

by *Marian M. George*

May 5th, 1900

My family and I are really excited about our trip to Puerto Rico. Everyone is **anxious** to learn more about this country, which is part of the United States.

Puerto Rico is a very beautiful island. Its climate and **scenery** attract many visitors.

Flowers **bloom**, and plants and trees grow fruit all year round. There is no typical winter, but during the winter season, the skies are clear and blue.

Our first view of San Juan fills us with pleasure. There are tall palm-trees everywhere: at the beach, in the city, around the colorful buildings. Our tourist guide tells us that San Juan is one of the most perfectly fortified cities in the world.

The most famous buildings are the governor's palace, the cathedral, the city hall, and the castles of Morro and San Cristobal.

In the heart of the town, opposite the City Hall, the guide shows us a public plaza. These plazas are flat, open spaces surrounded by shade trees. In the cool of the evening, people meet in these plazas and listen to the music of the band.

The people of Puerto Rico speak Spanish and have the Spanish customs, manners, and religion. They are happy, good-looking, hospitable, and polite people. They don't wear heavy clothes: men dress in white light **linen** or cotton, and women in cotton or other thin material.

1. 📖 👥 Complete the diagram with information about Puerto Rico that you already know.

2. 👥 Read the text and the statements. Are they correct, false or not mentioned? Discuss.
- Puerto Rico is a beautiful island of the United States.
 - There aren't hurricanes in this country.
 - A fort protects the old city of San Juan.
 - There are narrow streets and plazas in this city.
 - Houses are colorful and without chimneys or glass-windows.
 - Puerto Ricans are shy, reserved people.
3. 👥 Answer in your group. Then exchange ideas with the rest of the class.
- How did the family travel to Puerto Rico?
 - Why do you think Puerto Rico is called "the land of perpetual spring"?
 - Why do you think people from Puerto Rico don't wear heavy clothes?

MINIPROJECT

1. 👥 Get in groups and find out more about the island of Puerto Rico and prepare an oral presentation to promote a trip.
- Include:
- Location
 - Places of interest
 - Activities you can do
 - Typical food
2. Prepare a short oral presentation and some visual aids.
3. Share your presentation with your classmates.

Scientists discover a relative of the T-Rex

By William Preston

Yesterday, a local museum showed to the public a new type of dinosaur discovered in this area. The discovery proves that giant dinosaurs similar to the T-rex existed 10 million years earlier than we thought.

The skeleton shows a dinosaur smaller than the famous Tyrannosaurus Rex, but very similar to it. Scientists say it was a T-Rex's close relative that lived 80 million years ago.

Giant baby panda born at the zoo for the first time

Written by Daniel Boyle

Wonderful news comes from the Metropolitan Zoo. For the first time in 16 years, a giant baby panda was born there two days ago.

The **zookeepers** are very **cautious**. They say: "The first few days are too dangerous for a baby panda to survive. Most of the cubs born in zoos die."

The zoo director said: "It's too early to know its gender yet. We have to leave the mother panda and her baby alone to let its immune system develop."

The cub belongs to China and has to return there when it turns two years old.

The general public will have to wait three months before they can see it. Meanwhile, people can visit the zoo's website.

Kittens at International Airport

By James Monroe

Airport officials called firefighters to the International Airport yesterday because of a strange noise coming out of a case at the baggage counter.

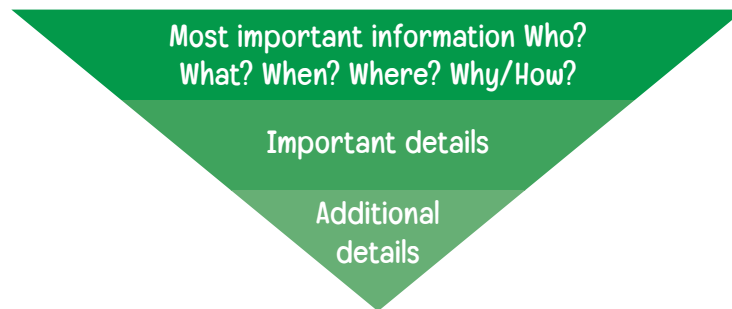

The discovery: a kitten and a puppy taken on a trip by the owner. He said: "I could not leave them home alone for three days." The pets went back home with their owner. "I decided to stay home with them", he said.

Model text

- 1 Read this news article. What is it about? Discuss.

Organizing ideas

- 2 Think about an interesting or amazing piece of news you would like to report. Use this inverted triangle diagram to collect information about it.

- 3 Write sentences narrating the events you want to report.

Drafting

- 4 Put the sentences together into a short piece of news. Use the model text to help you.

Revising and editing

- 5 Check your text. Correct spelling and grammar, if necessary.

Writing

- 6 Write the final version of your article on a separate piece of paper and attach some visuals. If possible, type the article and print several copies.

Publishing

- 7 Publish your article on a visible place in the classroom.

Studying changed my life

Around the world, there are approximately 62 million girls who are not in school. Each year, many international organizations make great efforts to change this situation. Carol Hullin's story is an example of that.

By Brenda Monroe

Many girls in developing countries usually leave school, when they are very young, to work as **maids**. Dr. Carol Hullin was born in *La Legua*, in Santiago, in a vulnerable context. At 7, she used to sell sweets and chocolates on the buses. *"My school years were traumatic," she remembers. "I didn't have good marks. When I finished school, my father wanted me to work, but my mother pushed me to continue studying."*

She became a medical technician. After that, an uncle invited her to travel to Australia.

There, thanks to a special international organization program, she studied and earned a P.H. degree in Health Engineering, with a concentration on Artificial Intelligence.

"To continue studying changed my life and my world," Carol says.

"Education is a synonym for freedom".

Her story is familiar to girls growing up in many poor areas all over the world. There, educating girls is still considered a **waste** of money.

Carol is a woman; she is indigenous and was born in a deprived context. Nothing prevented her to become a doctor.

 - a. Who is the protagonist of the story?
 - b. Where did it happen?
 - c. When did it happen?
 - d. What did the boy do?
 - e. Why is it important?
- 2 Read the text and confirm your ideas.

"I'm reading a story about a boy from Florida, in the USA.

Last month, he discovered an important device to help people when there is a flood."

THE SANDLESS SANDBAG

A 13-year-old boy has invented a sandbag without sand to use in flood defense.

By Megan Donovan

A month ago, Peyton Robertson, from Fort Lauderdale, Florida, was watching the news on television. A reporter was showing the damage caused by a strong hurricane in Puerto Rico.

After that, Peyton used his math and science skills to create sandbags filled with liquid polymer. The bags only expand when wet, so they are exceptionally light and easy to transport to areas affected by storms and flooding.

Peyton and his family usually experience the terrifying impact of super storms in Florida. He said: "Eighty percent of the damage caused by hurricanes is caused by flooding. This made me think about how people can prepare for floods."

"I love learning about things in the world that are hard to explain. You can find science in everything," he added.

Experts believe the invention could be widely used in the future and potentially save many lives. The *Sandless Operative Sandbag* impressed the judges of a national science contest so much that he was **awarded** the title of 'America's Top Young Scientist'.

Well done, Peyton!

Expressing actions in the past

a. Read these sentences from the text. Then answer the question.

*A month ago, Peyton Robertson, from Fort Lauderdale, Florida, **was watching** the news on television.
A reporter **was showing** the damage caused by a strong hurricane in Puerto Rico.*

- i. Do the sentences refer to a **specific action** or to a **continuous action**? Discuss.
 - ii. Take a look at the actions in bold in the text above. How are they expressed? Analyze them.
- b.   Write sentences expressing what was happening in these pictures. Use the time expressions provided.

Last weekend.

Yesterday at 5:00.

c.  63 Fill in the blanks with the correct form of the verb in your Activity Book.

Model text

- 1  Read this interview. How is it organized? Analyze it with your partner. Then check with your teacher.

THE SCHOOL HERALD

By Maureen Baldwin

With so many problems caused by climate change, we wanted to know more about Peyton, a young problem solver.

How did you become interested in science?

I've been a curious person since I was a child.

What made you decide to take on the sandbag?

The idea came out of my experience living through hurricanes in South Florida.

The key to my design is the addition of salt to the polymer.

Do you have any advice for other kids who want to get involved in problems affecting their areas?

You should start by making a list of all the problems that affect your area and then get to work!

Organizing ideas

- 2   Imagine you are going to interview a scientist who will talk about a useful invention. Use these questions to take notes.
 - a. Who is the inventor?
 - b. What did he/she do?
 - c. Why is the invention useful?

Drafting

- 3  Write some questions you would like to ask to the scientist. Follow the examples in the model text. Then find the answers to the questions you formulated.
- 4 Put the questions and answers together to write the interview. Invent a title for your interview and a name for the scientist. Follow the model and include all the necessary information (title, name of interviewer, introduction).

Revising and editing

- 5  Check that your questions follow a logical sequence. Check for spelling mistakes.

Writing

- 6  Write the final version of your interview on a separate piece of paper.

Publishing

- 7  Practice the interview with your partner, taking turns to be the interviewer and the interviewee. If possible, publish the interview on a visible place in your classroom.

LET'S PLAY

- 1 👤👤👤 Look at the picture of the park yesterday. Then close your book for ten seconds and take turns with your partners to report what was happening.
Example: *The family was running.* Compare your answers with other groups.

FAKE NEWS

Fake news is news that has been made,
Knowing full well that it's not true.
Some is false to make it **satire**
Some as rumors from sadism.

And some to **mislead** the reads,
False news motivated is no good.
Truth adulterated is bad too,
Impersonation and insertion
Made, fake news is manufactured.

Fakes news are circulated
With **ulterior** intention,
Fake news is forwarded to others,
Thinking that it is a true one.

Stop believing news in receipt,
Unless you trust the source with your soul.

 - c. 👤👤👤 What, do you think, is the purpose of spreading fake news? Discuss.
 - d. 👤👤👤 Recite the poem.

 MINIPROJECT

Get in groups and find some news on the Internet and/or newspapers about the proliferation of fake news. Gather all the information and create your own piece of news about the topic, following the models seen throughout the unit.

LISTENING

1 Answer the questions and then share your comments with your classmates.

- How do you get information about sports?
- Do you usually listen to sports news on the radio? Yes? No? Why?
- What sports programs do you usually listen to?

2 Read and listen to these questions. What is their purpose? Discuss.

- When did that happen?
- Where did he begin?
- Did they play badly?

3 Have a look at the pictures. Do you recognize the events? Find information about them with your partner and report them to other groups.

4 Listen to a sports news report. Then copy this diagram and complete it with the information you hear.

Name	Sport	Event	Place	Time
------	-------	-------	-------	------

LET'S REFLECT

- Are sports events experienced in a different way today, compared to the past? Discuss with your partner.

- 5  Answer these questions. Then compare the answers in your group.
- Have you ever practiced any of the sports mentioned? Which one(s)?
 - Would you like to try some of them? Which one?
 - Which item of the report you heard is important to you? Why?
 - Can you relate any of them with your place of origin? How?

LANGUAGE IN USE

Expressing interrupted actions in the past (continued)

- a.  Read these sentences from the recording, and other examples, and practice them with your partner.
- She *twisted* her shoulder badly *while* she *was* playing.

Checkpoint

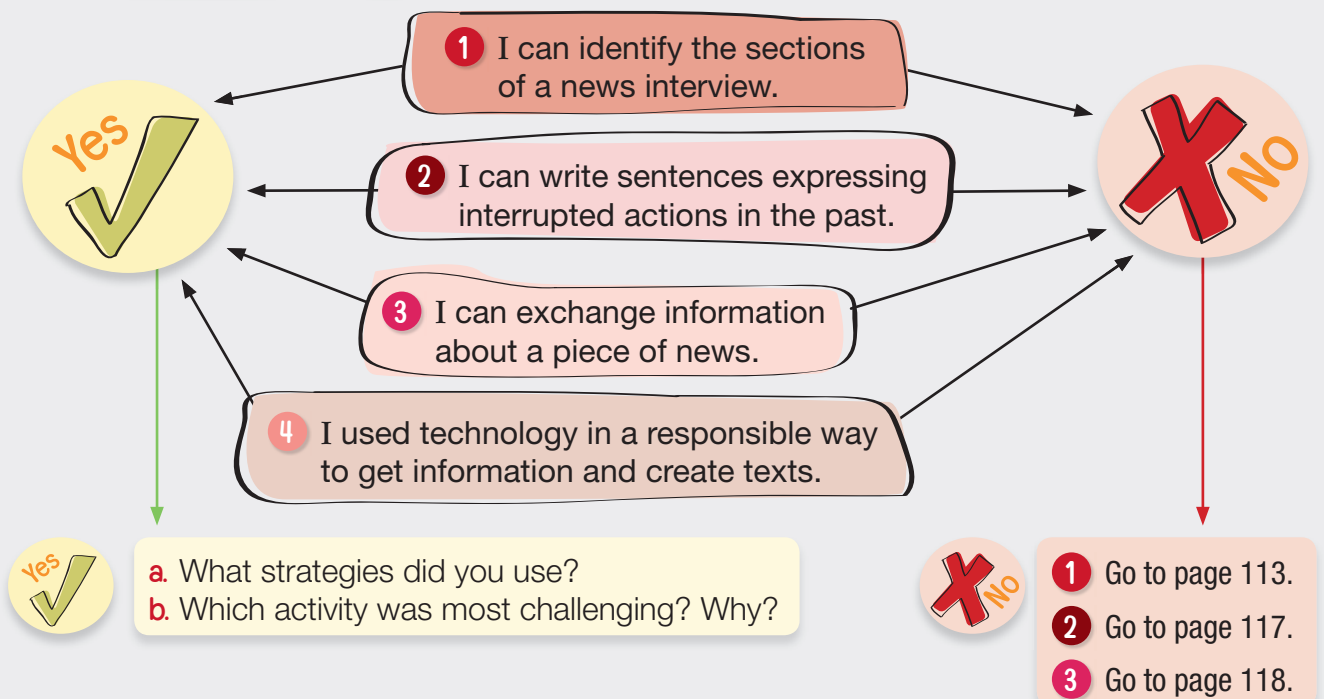

Try these challenges.

1. 👤 Read the headlines in the pictures. Identify the section of the news report they belong to.

2. Write three sentences saying what you were doing at 12 o'clock last Christmas.
3. 👤 Choose one of the headlines above and create a short paragraph about the news. Then share it with the class.

CHECK AND TAKE ACTION

HOW ROBOTICS IS HELPING THOSE WITH DISABILITIES

Some statistics recovered by the UK government show that 14.1 million people reported a disability in the UK in 2018-19, meaning 21% of the population.

The encouraging news is that technology, especially robotics, is improving the quality of life for disabled people, to help them enjoy the sense of freedom and independence that more able members of the population already have.

Prostheses

Prosthetic limbs have been available for several years now, but the field is advancing to the point where the products that are being created may soon be better than natural limbs in their performance and functionality.

Prostheses are also being developed with bionic skins that integrate with the nervous system, in much the same way as a normal limb.

Other advancements have seen prosthetics created using 3D printers, allowing children and adults to use lightweight limbs through everyday life, especially in areas affected by war.

Exoskeletons

Also known as orthoses, exoskeletons are revolutionizing the lifestyles of disabled people and those recovering from brain or spinal cord injuries. Also, advancements are being made that will enable exoskeletons to be controlled from the mind.

The evolution of AI has been developed to advance the world of robotics within the medical field greatly. The future is looking much brighter now for people with disabilities.

2. Read the article and check your ideas.
3. 👤 Read the text again. Identify the ideas that are true, false or not mentioned. Discuss them with your partner.
 - a. Robotics is being used to help people with disabilities.
 - b. Prosthetic limbs will never perform better than real limbs.
 - c. Some prosthetic limbs are using bionic skins that integrate with the nervous system.
 - d. It is impossible to create prosthetic limbs by using 3D printers.
 - e. AI is also being used to improve the automotive field.
4. 👥 Discuss these questions.
 - a. Have you ever met anyone with prosthetic limbs?
 - b. Do you agree that robotics can improve the lives of people with disabilities? Why?
 - c. Do you think robotic prosthetics will be available for everyone in the future? Why? Why not?

news reports

Printed text

As a class, you will prepare some items of news to be reported in a radio program.

PREPARATION

- 1** Work in groups. Follow these steps.
 - a. Listen to some news reports on the radio, TV or the Internet and take notes on the different sections and types of news they include.
 - b. Assign a section to each member of the group. Search for an interesting piece of news to be reported in the section you were assigned. (One student must take the role of presenter).

PRODUCTION

- 2 Prepare a short report on the item of news, including all the necessary information to answer these questions: Who? When? Where? What/How?
- 3 Write a script of a news report program. Use any of the models in this unit.
- 4 Practice reading your report aloud and role-playing the program. Imitate the intonation and pronunciation in the models of the unit.

PRESENTATION

- 5 Present your news report to your classmates. (If possible, record your performance and then show it to your classmates).

PEER ASSESSMENT

Read these indicators and check your performance with your group.

a. We followed the instructions and included all the information asked.

b. We presented a clear and well-organized project.

c. We completed our work on time.

f. We used communication technologies in a responsible way, to get data and to share information.

d. We had a positive attitude towards the tasks of others.

e. We worked collaboratively towards a common objective.

- 1 Read the piece of news. Identify if the statements are correct, incorrect, or not mentioned. Answer on a separate sheet of paper.

Last week, a university **professor** in Singapore gave a two-hour online class but didn't realize he was on mute. Professor Wang teaches math and was not aware that in his online presentation the microphone on his computer was switched off! None of the students attending his online class heard what professor Wang was talking about.

His class started well but then it froze. The video came back but the microphone was off and professor Wang did not notice.

Students tried many times to contact professor Wang during the lesson but could not get through to him. They waved their arms and even tried calling him on his personal phone. A video of the moment he understood the situation has gone viral on the Internet. It has received more than 653,000 views. After realizing what happened, professor Wang offered to redo the lesson at a different time so his students did not miss that class.

A 4-legged hero

By Cathy Jones

Natural disasters are terrible experiences for everyone who suffers them.

However, there are always inspiring stories of heroism. That's certainly the case of Hero, the ironical name of a black Labrador. Last month, the dog saved a man before he disappeared in rising flood waters.

After that, the dog was rescued by a special team and was honored at Genesis Awards.

Hero received a standing ovation and a huge bone!

UNIT 1

QUIDDITCH: a particular university **craze!**

Quidditch is the main sport of Hogwarts, the magic school in the Harry Potter series. In the book, Harry Potter and his teammates fly around on broomsticks, eluding flying balls and scoring points through goals high above the ground.

Muggle Quidditch is the sport for non-magic people.

Most of the rules of Muggle Quidditch are the same as the original game, but considering there is no magic. This means that the game looks quite ridiculous!

Instead of flying around on broomsticks, players must run around the field with a broomstick between their legs. And the golden snitch does not fly; it is a tennis ball in a long sock attached to the shorts of an official of the game. Players must **chase** the official to claim the snitch!

If you know the Harry Potter books, you can imagine how incredible the game would be in the world of magic. However, the adaptation is a little disappointing.

This sport originated in the United States, but many English universities adopted it with great enthusiasm. We don't know if it will become a serious sport like rugby, or will **die out** when people realize that playing it is nothing like the scenes in the Harry Potter movies.

Nature is Cool

By Barbara

Nature is cool in its own way,
 Nature is cool in the day,
 But if global warming happens,
 It would not be good
 For our earth and neighborhood.
 Global warming would make the earth hot,
 Which would be like a boiling pot.
 Global warming would **harm** the earth,
 Mother nature could not give birth,
 To animals and plants,

Earth would be under a **trance**.
 Green plants would lose their fame,
 Our waters would drain.
 Our government will try to help,
 But you and I need to save the **kelp**.
 So start playing it smart,
 And do your part.
 Life might not end,
 If you're Earth's friend!

Around the World in 80 Days

by Jules Verne (Extract)

Chapter XI

Phileas Fogg secures a curious means of transportation at a fabulous price.

The train passed the viaducts after an hour after leaving Bombay. It also passed the island of Salsette. Then it got into the open country. At Kalyan, they reached the **junction** of the branch line which descends towards south-eastern India by Kandallah and Pounah. After that, It passed Pauwell. It entered the mountains.

Their **summits were crowned with thick and green forests.**

Phileas Fogg and Sir Francis Cromarty exchanged a few words from time to time. Sir Francis, reviving the conversation, said, *“Some years ago, Mr. Fogg, you would have met with a delay at this point. It would probably have made you lose your **bet.**”* *“How so, Sir Francis?”* *“Because the train stopped at the **base of these mountains, and the passengers were obliged to cross in **palanquins** or on ponies to Kandallah, on the other side.”*** *“Such a delay would not have changed my plans in the least”* said Mr. Fogg. *“**I have constantly foreseen the likelihood of certain obstacles.**”*

April 2000: The Third Expedition

(Extract)

Ray Bradbury

It was a new ship; it had fire in its body and men in its metal **cells**, and it moved in silence. There were seventeen men onboard, including a captain. The crowd at the Ohio field had shouted and **waved** their hands up into the sunlight, and the rocket had flown into space, on the third voyage to Mars!

Now it was decelerating on Mars. It had moved in the midnight waters of space like a **leviathan**; it had passed the moon and thrown itself into space. The men inside had been beaten and had recovered, each in his turn. One man had died, but now the remaining sixteen, with their eyes clear and their faces pressed to the thick glass windows, watched Mars just below the ship.

“Mars!” cried Navigator Lustig...

FACT OR FAKE?

What is fake news?

Fake news is content that is not factual. This includes stories that are circulated online, usually via social media but also in the press, to make people believe something untrue, or stories that may be true in part, but have been exaggerated or distorted to make the reader adopt a certain point of view. Fake news is not new, but the internet has provided an international platform for it.

How does fake news spread?

People share fake news on social media, repeating what they've heard in the same way as repeating **gossip** at a party.

To avoid being tricked by fake news, consider these questions:

- **Is it being reported elsewhere?**
Have you seen this story anywhere else online, on TV or radio?
- **Is the site name normal?**
Do you trust the website where you saw this story? Do you recognize its name?
- **Do the photos and videos look right? Or do they look manipulated?**
- **Does the headline agree with the content of the article?** Read the entire piece before you share a story to be sure that it is an article you really want to share.
- **Do you have any doubts?** If yes, check with an adult and ask them what they think about the story.

The internet was invented as a **tool** for sharing information. We're all responsible when it comes to preserving its potential for good.
